

Judi Smith, MS, MT (ASCP)

Vice President, In Vitro Diagnostics Regulatory, Precision for Medicine

Judi Smith is the Vice President, In Vitro Diagnostics Regulatory and Quality, of Precision for Medicine. She has worked in the medical products regulatory submissions and approvals, quality, and clinical trial areas for over 30 years. She also has expertise with in vitro diagnostic products, and biological in vitro diagnostic assays and for the establishment of quality systems for diagnostic products. She has developed and implemented clinical trials for these products, which were used to generate data for the regulatory submissions. She also is on the faculty of the RAPS University as an IVD Subject Matter Expert.

In addition, she is a member of the FDA/Industry Roundtable and was awarded the FDA Group Recognition Award. She has served as President of the Association of Medical Diagnostics Manufacturers since 2006.

She received her Bachelor of Science from Temple University and her Masters of Science from Medical College of Pennsylvania.
